Discover Automotive Student Testing

Automotive Student Testing helps automotive education programs **get more students prepared to pass ASE Entry-Level Certification tests**. By identifying knowledge gaps early and giving students repeated practice with **ASE-aligned assessments**, the platform helps instructors improve both student confidence and certification outcomes.

Designed for secondary and post-secondary automotive programs, Automotive Student Testing includes targeted content-area quizzes, standardized assessments, key terminology, instructional resources, and progress tracking that students can access from virtually any device.

Weekly and on-demand reports show instructors who is struggling, which subject areas need additional instruction, and where targeted remediation is required. This allows educators to intervene sooner, adjust lesson plans, and focus classroom time where it will have the greatest impact.

Automotive Student Testing helps programs spend less time creating and grading assessments—and more time building student knowledge, strengthening test-taking skills, and **helping more students pass ASE Entry-Level Certification tests**.

The #1 Choice for Educators & Administrators

AST has become a go-to resource in automotive education—and for good reason. Instructors see measurable improvements in student performance, engagement, and ASE readiness term after term. With powerful assessments, actionable reporting, and easy-to-use instructional tools, AST does more than support student success—it helps transform the way automotive programs teach and assess. Experience the difference for yourself.

Jose "Joe" Musa
MAST 1 Instructor - Sheridan
Technical College

"During the 2025-26 school year, I used this resource to help my students earn their student-level ASE certifications, and it worked extremely well. 100% of my students passed the ASE student-level A1, A4, A5, and A6 tests, which exceeded my expectations."

Automotive Student Testing is developed with instructors, and built on the foundation of ASE Test Prep, serving the automotive training market since 1998.

Next-Generation Automotive Assessment & ASE Prep

Automotive Student Testing (AST) is trusted by automotive training programs nationwide. Backed by nearly three decades of industry experience from ASE Test Prep LLC, AST gives instructors powerful assessment, reporting, and student-performance insights unavailable from other educational services.

FEATURES:

- **16 ASE Areas:** Comprehensive coverage of A1–A8 and eight additional ASE areas.
- **Prebuilt and Ready:** No test creation or setup required—simply teach, assign, and review results.
- **Tests and Quizzes:** 25-question ASE-area tests and focused 10-question content quizzes.
- **Standardized Testing:** Simulated EOPA-style assessments with instructor-controlled access.
- **Advanced AI Validation:** Every question is reviewed and aligned with official ASE standards.
- **Powerful Reporting:** Automated weekly reports and instant, one-click on-demand reporting.
- **Key Terminology:** Quick access to essential industry terms and clear definitions.
- **Animated Videos:** Narrated and captioned instruction that simplifies complex automotive systems.
- **Easy Onboarding:** Instructors and students can register and begin in seconds.
- **100% Web-Based:** No software required; works on smartphones, Chromebooks, tablets, PCs, and Macs.
- **Randomized Assessments:** Every test and quiz is uniquely generated to discourage memorization and reduce cheating.

See Real Results — Free, With No Obligation

Scan the QR code to claim free, full-access trials for you and your entire class. Within just one week, you can begin identifying knowledge gaps, measuring progress, and improving student performance. Experience the power of AST and take your teaching and assessment to the next level.

Teach & Assess with AST

- **Initial Benchmarking:** Assess student knowledge at the beginning of the term or before starting a new section.
- **Automotive Fundamentals:** Begin with AST's exclusive A0 assessment covering topics like careers, math and calculations, shop safety, tools and vehicle identification.
- **Strategic Quizzing:** Assign focused quizzes before, during, and after each topic.
- **Comprehensive Testing:** Measure mastery after completing each ASE area.
- **Weekend Assignments:** Use untimed tests and quizzes for homework and reinforcement.
- **Test-Taking Skills:** Use reporting data to identify habits and improve student test performance.
- **End-of-Pathway Readiness:** Build the knowledge, confidence, and testing skills students need for End-of-Pathway Assessments.

Why Schools Choose AST

- **Identify Knowledge Gaps:** Pinpoint where students struggle and provide targeted instruction that builds understanding and confidence.
- **Measure Student Growth:** Track progress over time to ensure students are mastering skills and staying on course.
- **Strengthen System Knowledge:** Help students understand how automotive systems operate, not just memorize answers.
- **Prepare for End-of-Pathway Exams:** Use structured practice and focused assessments to improve certification readiness.
- **Increase Student Engagement:** Reinforce learning through active participation, practical applications, and real-world scenarios.
- **Balance Teaching and Assessment:** Save time with streamlined tools that make it easier to teach, assess, and respond to student needs.
