\* LEG BRACES REQUIRED ON TABLES 42"D; LEG BRACES & STRETCHER REQUIRED FOR TABLES OVER 72"W. AND FOR SOME EPOXY TOPPED TABLES. NOT ALL TABLE OPTIONS ARE AVAILABLE ON ALL TABLE SIZES.

## Construction Specifications

- Cabinets**  
Constructed of solid wood, and hardwood Veneers using dowel construction
- Drawer Glides**  
Epoxy coated and have 70 lbs. or more capacity
- Casters**  
Units with casters has four 4" heavy duty swivel casters with brakes
- Drawers**  
Feature full dovetail construction. Drawer fronts are wood veneers with solid wood edge banding
- Doors**  
Constructed of oak plywood with solid oak edge-banding
- Hinges & Locks**  
Five knuckle institutional hinges; Locking doors and drawers

## Plain Apron Oak Tables

Our top-selling plain apron tables are available in a variety of sizes, and different top materials. These tables are built for years of dependable service. Legs and aprons are constructed of solid red oak, and are smoothly machined. They are finished with a chemical resistant, earth-friendly UV finish. Aprons are constructed of solid red oak and are 13/16"D x 4-1/2"H with heavy-duty 13-gauge steel corner braces. 2-1/4" square solid oak legs, with 5/16" hanger bolts installed, are attached to apron with nuts and washers supplied. All tables are equipped with non-skid adjustable glides for precise leveling and for prevention of rocking on uneven floors. Tables are supplied with black rubber leg boots which offer protection against scuffing and chemical spills. Standard table height is 30" with a weight capacity of 500 lbs. (Shipped KD with tops attached)

## Plain Apron Maple Tables

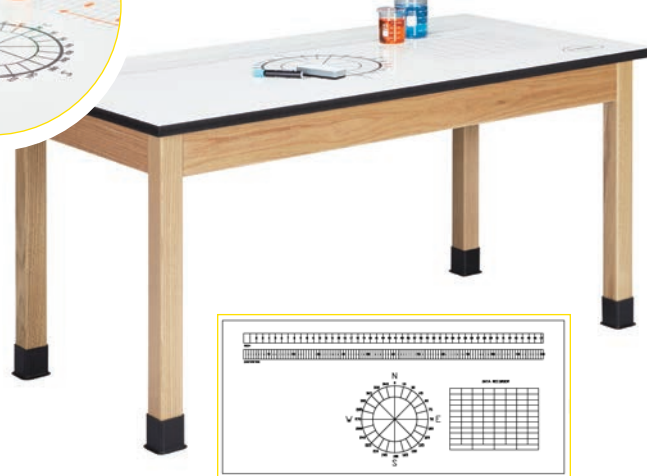

Available in a variety of sizes, with several different top materials. Constructed of solid maple and finished with an earth-friendly UV finish. Aprons are constructed of solid maple and are 13/16"D x 4-1/2"H with heavy-duty 13-gauge steel corner braces. The unit has solid 2-1/4" maple legs with 5/16" hanger bolt installed, and are attached to the table with nuts and washers (supplied). All tables include leg boots and levelers. Choose from plain or book compartment apron. Standard height is 30"H. Other sizes and options are available, call for more information. (Shipped KD with tops attached)

## STEM Imprint Tables

The STEM tables are built similar to our oak and maple plain apron tables, but with an easy-to-use imprinted top. The top is imprinted with graphs and measurement tools so students can measure and record shared data. The top has a compass, meter stick, yard stick, circular graph and data recording graph. This high-pressure laminate top works as a standard marker board, can be marked up with crayons, grease pencil or dry erase markers. Clean up is easy with standard markerboard cleaner or a damp cloth. The 54"W x 24"D top is perfect for up to four students to collaborate.

## Oak Book Compartment Tables

Book Compartment Tables are built with the same quality techniques as the plain apron table. They are finished with a chemical resistant, earth-friendly UV finish. These tables have either two or four book compartments (depending on size) installed in the apron. The book compartments measure 14" W x 13-5/8"D x 3-7/8"H. The table has a weight capacity of 500 lbs. On tables 72"W or over, we recommend ordering with leg braces and stretchers. (Shipped KD with tops attached)

## A-Frame Table

Our A-Frame table adds function and beauty to any space you desire—by customizing a table that is uniquely yours. The powdercoated legs are made of 2-1/2" x 2-1/2", 1/8" thick wall square steel tubes, with a fully welded 2" x 2" cross brace. The top is supported with an 11-gauge steel "C" channel and attached to the legs with bolts. The top is attached with screws in two

directions ensuring the tables stability. The table moves effortlessly on locking, swivel casters. The frame is available in four colors—White, Silver, Orange and Black along with several top options. Available in 48", 60" & 72" widths, 36", 42" & 48" depths, and 30" & 36" heights. See chart on next page for details of how to order and configure sizes and tops.

## Trapezoid Table

This unique shaped table allows for flexibility; use as a two-student table, or the options are endless for reconfiguring tables for group work. The sturdy construction ensures that moving the table won't cause problems. Constructed of solid oak or maple aprons, 2-1/4" solid legs and have a steel frame supporting the apron. Choose from 1-1/4" plastic laminate or 1-1/4" ChemGuard. The wood is finished with a chemical resistant, non-emitting UV finish. Tables are available with and without casters.

## Media Trapezoid Table

Add a new dimension to your collaborative workspace. This trapezoid shaped table stores a TV mount that holds up to a 40" television (not included). The table's shape makes it perfect to use with trapezoid tables. It has a solid oak apron and legs. The 1-1/4" thick plastic laminate top and apron are attached to the angle iron steel frame ensuring stability. The television mount is enclosed inside an oak plywood cabinet. The TV mount can be operated by pressing the button on the top or with the remote, which is provided. When the television is raised, a portion of the top flips up. The table top is flat when the television is stored inside the cabinet. 4" locking swivel casters adds mobility.

## Fixed Height Riser Table

Perfect table for STEAM projects. We've taken our popular oak and maple science tables and enhanced them by adding a riser. The table features solid oak or maple (your choice) aprons and riser supports finished with a chemical resistant finish. The riser has 10" clearance above the work surface and is 12"D and made of the same material as the top you choose. Top options include: 1-1/4" plastic laminate, 1-1/4" ChemGuard, 3/4" phenolic resin, or 1" epoxy resin. All 72"W tables include leg braces and a stretcher for added strength. Tables stand 30"H. The top of the riser is 41" from the floor.

## Adjustable Height Riser Table

This table has everything you could want. It adjusts easily from 27-3/4" to 39"H (42" with included spacer) in 2 cm increments in less than 30 seconds without the use of tools. Its apron is solid maple or oak and finished with a chemical resistant finish. It has a riser that provides extra workspace for each person to put his or her tools or laptop. The table has two top options: 1-1/4" plastic laminate or 1-1/4" ChemGuard. The riser's horizontal surface matches your choice of top surface. The 12"D riser is supported by six 1" diameter powder coated steel tubes. The riser is 10" above the table surface. Tabletop measures 60"W x 30"D.

# adjustable height tables

## Adjustable Height Table

A perfect solution for ADA requirements that can adjust in 2 cm increments from 27-3/4" to 39" (42"H with 3" spacer provided). Can also be adjusted for use as an incline surface for physics. Solid 4-1/2" oak aprons are attached to your choice of three top options: 1-1/4" plastic laminate, 1-1/4" ChemGuard, or 3/4" phenolic. Note: phenolic resin tops are heavier and may require two people to adjust the height. The wood is finished with a chemical resistant, earth-friendly UV finish. The table has a weight capacity of 500 lbs. Optional casters sold separately.

## Adjustable Oak Leg Table

The A7000 table has the same construction as our standard table with the exception of adjustable legs. The aprons are solid oak. Legs can adjust from sitting height of 30" to standing height of 36" by removing the bolt on the leg surface. Available in four types of tops: 1-1/4" plastic laminate, 1-1/4" ChemGuard, 3/4" phenolic resin, and 1" epoxy. The table is finished with a chemical resistant finish.

## Adaptable Table (ADA)

Adaptable...The name says it all. The height can be adjusted so easily—adapt to your situation. The unique design of the leg allows you to adjust the height of the table in less than 30 seconds without the use of tools. Use the table at sitting height, standing height, or even at display height. Use the table for elementary children through adults. Ideal for use by a person in a wheelchair. Make it match the height they need. Table adjusts in 2 cm increments. The powder-coat legs include adjustable glides. Choose from two sizes and two tops. Height adjusts from 27-3/4-39"H (42" with included spacer).

## Hi-Lo Bench

Designed with today's challenging ergonomic and ADA issues in mind, these tables allow the work surface to be adjusted for a comfortable and efficient positioning of the arms and hands. The height can be adjusted from 28" to 48"H by turning the hand crank. Turning the hand crank 2 times moves the work surface one inch. The crank folds and is stored under the table. Choose from either a 1-3/4" solid maple, 1" epoxy resin or 1-1/4" plastic laminate top in either black or almond. Available in two widths and depths. Frame color: Black. Add the optional casters for mobility.

## PLANNING TABLES

Designed to be used in most any environment from art and general planning to sewing and model construction. The base is constructed of two tapered solid maple pedestal style panel legs and two solid maple truss bars. The unique way the top is attached prevents the table from racking or rocking. The table is finished with an earth-friendly UV finish. Choose from plain, book compartment

or tote tray units. Book compartment measures: 34-1/2"W x 12-1/16"D x 2-1/4"H. Each tote measures: 13-1/2"W x 19"D x 3-1/2"H. Other choices include standard height (30"H) or elementary height (26"H), and the choice of 1-3/4" solid maple top or 1-1/4" plastic laminate with 3 mm PVC edging in either birch or almond color. Overall size: 60"W x 42"D

## Adjustable Drafting/Drawing Table

Our top selling table for drafting and computer generated art use. Designed for rooms with limited space options, this table is perfect for drafting, graphic art and CAD. The solid maple pedestal legs support this sturdy table. A rear shelf (9-7/8"D x 42"W) can hold a computer monitor. The 42"W x 30"D adjustable 3/4" almond colored plastic laminate top has a soft close feature and includes a pencil stop. The unit can be ordered with a CPU holder or with locking storage for either a desktop or tower model computer. Other options include: Flat panel monitor arm, stationary monitor platform, and factory installed under-desk keyboard tray, Vyco board cover and parallel straight rule. Fully assembled. Overall size: 42"W X 40"D X 30"H

## Elliptical Monitor Arm

Monitor arms save up to 40% of desk space! The elliptical monitor arm is designed to reduce the amount of desk space taken up by monitors. It frees up the space underneath, behind and around monitors. Monitor arms make it easy to move screens out of the way when they're not being used giving more flexibility to work. In new or renovated environments, our monitor arm allows for smaller desks and more workstations

per square foot, which translates into greater savings in real estate costs. Holds up to 17" flat screens. Extends 13-7/8". Color: Silver

## ALTD-1

Our adaptable drawing table's height adjusts in 2 cm increments from 27-3/4" to 39"H (42" with included spacer) in seconds, making it great for people that like to work at different heights. The art/drafting/graphics table is made for one student or teacher application. This 3/4" almond colored plastic laminate top comes with one adjustable side (42" x 30") and one fixed (18" x 30") side. The adjustable side is great for drawing, while the fixed side works well for laptop or tabletop use. Pencil stop included on adjustable top side. Overall size: 60"W x 30"D

ITEM #	TOP	TOP STYLE
ALTD1-6030	3/4" Almond Plastic Laminate	2-Piece Adjustable & Fixed

## ALTD-2

Fully adjustable two-station art/drafting/graphics table able to accommodate both elementary children through adults. This table comes with two (30" x 30") adjustable 3/4" almond colored plastic laminate tops—one or both sides of the table can remain flat or at an angle. Both sides include a pencil stop. The unique design of the leg allows you to adjust the height of the table in less than 30 seconds without the use of tools. The table adjusts from 27-3/4" to 39"H (42" with included spacer) in 2 cm increments. Pencil stop included on hinge side of top. Overall size: 60"W x 30"D

## Heavy-Duty Woodworker's Vise

Solid steel dog in the front jaw, when used in conjunction with a bench stop, allows oversize work to be held securely on the bench top. Machined, toed-in jaws provide a solid grip, while steel no-pinch handles provide adequate clamping pressure. The front and back jaws are drilled and tapped or counter-sunk holes to allow for optional wood facing. Vises easily fit any bench up to 3" thick. Installation template included.

- 2300 Model: Cabinet Base Unit w/full door has an adjustable shelf, with a 40 lb. capacity per sq. foot.

## Add-A-Cabinet

This unique table gives you the ability to change it as your needs change. Basic unit comes with a 60"W x 30"D x 36"H table that is reinforced with welded steel angle understructure. Cabinets can be mounted to the underside of the table and attached using a solid bolt connection. The unit comes standard with one cabinet, but there is enough room for two cabinets to be hung from the table. The cabinets measure 24"W x 22-1/2"D x 28-1/2"H. Choose from three cabinet options: drawer over door (with one adjustable shelf), Single door (with one adjustable shelf) and Drawer (two upper drawers and a file drawer). The doors and drawers lock. The top is 1" epoxy resin. The unit is finished with a non-emitting UV finish. Overall dimensions: 60"W x 30"D x 36"H.

## Forward Vision I

This popular workstation meets the needs of students and teachers today. The Forward Vision 4-Student Workstation allows four students to work at a single station while all are facing the teacher. The unique design leaves enough room to store four stools (not included) under the workstation. Sink units come with two combination cold water/gas fixtures. The 2916KLH and 2936KLH include two rod sockets and LabHands for holding laptop computers and books. All the units come with 1" epoxy resin tops with two GFI electrical outlets, and ample storage. Choose from two models of cabinets: Door cabinet with two adjustable shelves or the door/drawer cabinet with one adjustable shelf and a drawer. The stations are finished with a chemical resistant, earth-friendly UV finish. All doors and drawers lock. Overall dimensions: 96"W x 50"D x 36"H

PUSH-BUTTON

## Ez-Lift Workstation

Both of the units' height is adjustable from 28" to 40"H. Choose from 1" epoxy resin or 3/4" phenolic resin top. Students have plenty of space with either the 96"W x 50"D or 88"W x 46"D work surface. Two hooks mounted underneath hold up to four book bags. The bone powder-coated steel and oak veneer base conceals the lifting mechanism. It is finished with a chemical resistant, earth-friendly UV finish. The unit provides six GFI protected electrical outlets. Assembly and power source required. The manual-crank unit has a fold-away crank accessible on the student side of the workstation. The push-button unit has an easy, power option. The motor is accessible by removing one of the oak panels. Plug only supplies power to the hydraulics on the push-button model. AC Duplex needs to be hard-wired in the field.

### Four-to-Sixteen Student Island Workstation

Double faced tables that provide a fully equipped science center from four to sixteen students. Choose from two models: full cupboard or half cupboard with dovetailed drawers. Each unit is constructed of solid oak, and hardwood veneers with a chemical resistant, earth-friendly UV finish. Choose for either 1" solid epoxy resin or 3/4" phenolic resin tops. The double faced units contain a solid epoxy resin sink (12"W x 8"D x 6"H) along with cold water faucets for every two students. Every unit contains enough gas cocks for each student along with GFI AC duplex electrical receptacles, rod sockets and book compartments. All units contain locks for the drawers and doors. Can be ordered without sink, fixtures and rod sockets. Double face four student unit measures 66"W x 48"D x 36"H. Add 66" in width for each four students.

## Perimeter Workstation

Workstation provides work space for up to four students while storing your laboratory equipment in these perimeter workstations. Choose from 4 different configurations (see below). The four cabinets which make up a single unit measure 24"W x 16"D x 35"H. The stations are designed to utilize space along walls where they can stand alone or be ganged together. Durable solid oak and oak veneer construction finished with a chemical resistant, earth-friendly UV finish. Each unit includes: your choice of 1" solid epoxy resin or 3/4" solid

phenolic resin top with back splash, solid epoxy drop-in style sink with strainer, 2 combination cold water and gas fixtures, 4 rod sockets, rod storage (rods not included), 2 GFI electrical receptacles, keyed-alike locks on all doors and dovetailed drawers and rubber base molding. Assembly and installation of electricity and plumbing is required. Sink measures: 12"W x 8"D x 6"H. Unit measures 90"W x 84"D x 36"H. Work surface on wall portion is 18"D.

## Peninsula Workstation

This unique L-Shaped unit is designed so four students can use the workstation while facing the teacher. It has storage on the peninsula and on the wall. It is made of oak and oak veneers with black accents. The unit can be ordered with a 1" epoxy resin top. Three sink options are available: epoxy sink (18"L x 15"W x 7.9"D) on the wall section, epoxy sink (16"L x 8"W x 6.8"D) in the peninsula or a no sink option.

Units with sinks include cold water fixtures (call for quote if gas is needed). All units include a pop-up duplex electrical outlet. Finished in natural oak with an earth-friendly chemical resistant UV finish. Assembly and installation of electricity and plumbing is required. Wall portion measures: 90"W x 14"D; peninsula extends: 96"; Overall size: 110"W x 90"D x 36"H

## Wall Service Bench

Need all your services in one place or looking to add a wall of cabinets that include services? The Wall Service Bench offers storage and services all in one unit. Constructed of solid hardwood and oak veneer plywood. It features your choice of a 1" solid epoxy resin or 3/4" phenolic resin top with a 18"W x 15"D x 11"H epoxy resin sink and two combination cold water/gas fixtures. The sink area allows access to the plumbing and provides a large storage space with two GFI protected AC duplex electrical outlets. There is enough room in the sink area to allow two 24"D tables to be butted against the unit for use as a peninsula work area. The outer ends of the unit offer four storage solutions: Doors with Adjustable Shelves, Doors/Drawer Combination w/one Adjustable Shelf, Four Drawers/Doors with one Adjustable Shelf and 4 Drawers. All drawers and doors have locks and ADA compliant pulls. The unit is finished with a chemical resistant, earth-friendly UV finish and includes rubber base molding. Overall dimensions: 108"W x 24"D x 36"H

## Trifacial Workstation

Hexagonal workstation designed to be used with standard 36" laboratory tables. This unit features an epoxy resin top with a drop-in hexagonal lipped sink. Apron and pedestal are constructed of solid hardwoods, and oak veneers, with a chemical resistant, earth-friendly UV finish. Equipped with three combination cold water/gas fixtures and three GFI duplex receptacles. The center pedestal has a removable panel to access utilities. Unit is also available in a flat top version without the sink and fixtures.

## Service Island

A compact service island constructed of solid oak hardwood and oak veneers, with a chemical resistant, earth-friendly UV finish. This unit can be grouped with tables to provide an efficient working arrangement. The unit includes one 14"W x 10"D x 6"H solid epoxy resin sink, two combination cold water/as fixtures, two GFI AC duplex electrical receptacles, chemical-resistant polypropylene trap, and locking cupboard.

ITEM #	SIZE	TOP

SHOWN WITH TWO 30"H PLAIN APRON TABLES

## Clean Up Sink

One piece top includes a sink that is molded of polyolefin—an easy to clean, extremely chemical resistant material that is impact resistant to reduce glassware breakage. Long grooved sloping counter leads to large sink in center. The low temperature strength eliminates cracking with dry ice, and the sink measures (24-1/2"W x 18-1/2"D x 14"H). It includes a hot and cold water mixing faucet. The base is constructed of hardwood and oak veneers with a chemical resistant, earth-friendly UV finish. Comes with an adjustable shelf in each of the outer cabinets. Includes: pulls, locks and rubber base molding. The back panel is unfinished with a plumbing cut-out.

Hot Water Mobile Station

Need hot water, but there is no plumbing close? This hot water stations provides the ability to move to any location and still have access to hot water. The oak veneer cabinet features a water heater and water pump providing you with hot or cold water. The tanks are NSF, UL and FDA approved and labeled accordingly: 5 gallon fresh water and 6 gallon waste water tank. We recommend starting with room temperature water in the fresh water tank to get the maximum use of the water heater. Water heats up to 10 to 15 degrees warmer than the fresh

tank temperature. The mobile station has a 1-1/4" plastic laminate top, stainless steel sink, hot and cold water mixing faucet and a duplex outlet. It comes with an extension cord and has an outlet. Unit rolls easily on 4" locking, swivel casters and locks.

ITEM #	SIZE	TOP

Rinse Away Sink

The Sheldon Rinse-Away counters provide a long, sloped counter, integral sink, raised edges and coved corners all made of fiberglass to retain spilled materials and liquids. Ideal for plant and animal preparations that are messy, this unit features a sink in the middle of the unit with storage on either side. The base consists of two oak storage cabinets with drawers (Drawer over door with one adjustable shelf). The center section has a removable panel to access plumbing. On the standard unit, the panel is flush with the outside

cabinets. On the ADA model, the panel is angled allowing a wheelchair to access the sink area. Includes a hot and cold mixing faucet. Overall size: 80"W x 24"D x 38"H standing height; 34"H at the sink area

## 8' Instructor Desk

Finish your space by coordinating with your tables—this desk is constructed of solid oak, and hardwood veneers—and serves as a complete demonstration center offering a spacious work surface. It is finished with a chemical resistant, earth-friendly UV finish. Included are drawers, and a cupboard for storage of large items. The drawers are expertly crafted from the finest materials with dovetail joinery throughout. Drawers run on epoxy-coated steel glides with nylon bearings for smooth operation. Equipment includes: one hot and cold mixing faucet, double gas cock, GFI protected AC duplex receptacle, polypropylene trap, set of support rods and crossbar, rubber base molding and locks for cupboard and all five drawers (two small, three large). Can also be ordered without the sink, faucet, gas cock, rod sockets or support rod. Note: mirror, and mirror/marker board will not fit this unit. Dimensions: 96"W x 30"D x 36"H, Knee space: 22"W x 32-1/2"H, Small Drawers: 14-3/4"W x 19"D x 5-1/2"H, Large Drawers: 33-3/4"W x 19"D x 5-1/2"H, Cupboard: 34-1/2"W x 28"D x 29-1/4"H, Sink: 18"W x 15"D x 11"H

## VersaCurve

A new concept in instructor's desk featuring versatile work spaces. This oak veneer cabinet has a modern curved front with a traditional desk on the teacher side. The curved front section is designed to store and display a 40" television (not included). The TV can be viewed by raising the mount with either a push button or the provided remote. As the TV rises from the desk, a portion of the phenolic top lifts away. When the TV is recessed into the cabinet, the top can be closed providing extra work space. The curved portion of the desk is 36"H and 20"D. The back portion of the desk includes two cabinets and a 36"W knee space. It is finished with a rubber base molding and a chemical resistant UV finish. The top is 3/4" solid phenolic resin with a choice of cabinet and drawer options. The combination with a sink comes with a black epoxy sink and a cold water/gas fixture faucet. Drawers and doors have locks. The drawers are dovetailed on all four sides. Back portion of the desk is 33"H and 20"D. The overall size of the curved instructor's desk is 72"W x 40"D x 36"H

## Teacher's Work Desk

A beautiful desk that will match the rest of your furniture—and is constructed of select hardwoods and oak veneers. It is finished with a chemical resistant, earth-friendly UV finish. The top is 1" black high pressure laminate. The top also has two grommet holes for threading power cords. The pedestals have two file drawers, four smaller drawers and one center pencil drawer. All the drawers lock, except the pencil drawer. The knee space provided is 26"W.

ITEM #	SIZE	TOP
1131K	60"W x 30"D x 30"H	1-1/4" Plastic Laminate

## 5' Instructor Desk

Complete demonstration center constructed of solid oak, oak hardwood and oak veneers—with a chemical resistant, earth-friendly UV finish. Included are four drawers (three small, one file), and a large cupboard. The drawers are dovetailed and run on epoxy-coated steel glides with nylon bearings for smooth operation. All units come with a GFI protected AC duplex receptacle. You can order with/without these options: combination cold water/gas fixtures, epoxy resin sink, and polypropylene trap. Comes standard with pull-out writing board, greenlaw arm, rubber base molding and locks for cupboard and all drawers. Choice of 3/4" solid phenolic or 1" epoxy resin. Dimensions: Overall: 60"L x 30"D x 36"H, Knee space: 22"W x 32-1/2"D, Pull-out: 3/4"H x 16-1/4"W x 25-1/4"D, Small Drawers: 13-1/2"W x 18"D x 4"H, File Drawer: 13-1/2"W x 18"D x 10-1/4"H, Cupboard: 19-1/2"W x 28"D x 29-1/2"H.

### Interactive Mobile Media Cabinet

A unique mobile cabinet that allows the user to store, move and use many electronic devices at one time. The unit has ample storage with two dovetailed drawers and cabinets with adjustable shelves for things like projectors, printers, laptops, and general supply items. The 3/4" phenolic resin top is both chemical resistant and easy to clean. The top has a cutout section (21-3/4"W x 17-1/4"D) where a monitor can be attached to a flat panel monitor arm. A monitor (not included) can adjust to be exposed above the cabinet, or used in the cabinet and seen through a Plexiglas panel that fits over the opening. A phenolic panel is also included for times when the monitor is not needed. The unit includes a pullout keyboard tray, 2 data ports, an extension cord, a duplex outlet and an inlet plug. On the backside of the unit, doors provide access to a power-strip, which has eight outlets. Throughout the unit there are holes for running cables to the appropriate areas. Venting is cleverly disguised in the bottom of the unit. This unit is available in either oak or maple veneer and is finished in a chemical resistant finish.

## Clamp Outlet/USB Hub

The hub will add instant convenient AC power and USB charging accessibility to your work surface. Keep your laptops, tablets, tools, or other mobile computing devices charged and ready to go at your table, workbench, or anywhere else power access is needed. Includes three outlets, two USB ports, and one tablet holder.

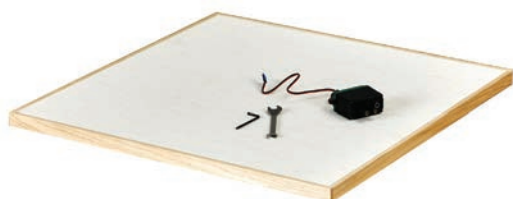

ITEM #	PRODUCT	SIZE
251975	Clamp Outlet/USB Hub	5-1/4"H x 7-1/4"W x 3"D

## Test Divider

Looking for a way to make your multi-student tables work for testing situations? These test dividers are an easy, effective solution. The dividers easily attaches to tops up to 1-1/4" thick with an adjustable dial and clamp. The panel is made of a sturdy black plastic, which provides a dense, private divider. The clamp holds the panel in an upright position and slips easily onto the edge of your table. Sold in a set of 3. The dividers measure: 14"W x 1/4"D x 19-1/2"H

ITEM #	PRODUCT	SIZE
253244	Test Divider Set	14"W x 1/4"D x 19-1/2"H

## Soldering Board

A high temperature insulated millboard with 1/4" soldering sheet. The sheet takes a maximum temperature of 1380 degrees and has a heat flow rate at 750 degrees. This is the perfect application to protect your work surface on table or cabinet. This millboard is framed with 1/2" plywood bottom and edge banding to create the perfect 3/4" soldering surface for any project.

ITEM #	PRODUCT	SIZE
VXS-1818	Soldering Board	18-1/2"W x 18-1/2"D x 3/4"H

## Magnetic Tool Holder

Magnetic Tool Holder can be used to organize hammers, wrenches, screwdrivers and more. This is perfect for use for your tools on the Robotics Bench. Has durable black powder coating. Magnet is 13"W x 1"D x 1"H, and made of powder coated steel.

ITEM #	PRODUCT	SIZE
251913	Magnetic Tool Holder	13"W x 1"D x 3/4"H

## Skeleton Cabinet

Choose the model that suits your classroom skeleton—either on a rolling stand or a hanging model on a retractable glide. Constructed of solid oak and oak veneers, with a chemical resistant, earth-friendly UV finish. The retractable glide is included in the hanging model. Both locking cabinets have wood framed 3/16" tempered glass doors for easy viewing. A shelf is included with each unit for extra storage. Weight: 220 lbs

## Mobile Microscope Storage Cabinet

A mobile microscope cabinet that is constructed of solid hardwood, solid oak and oak veneers with a chemical resistant, earth-friendly UV finish. The top is 1-1/4" black plastic laminate that furnishes an auxiliary work surface. The locking front and back doors provide secure, safe storage for 24 standard microscopes (6-3/4" x 10" x 15-1/2") but contain removable wire dividers to create a flexible storage solution for any size microscope. With a mobile capacity of 500 lbs., this cabinet rolls easily on heavy-duty swivel casters with brakes. Weight: 220 lbs

ITEM #	TOP	SIZE
4701K*	1-1/4" Plastic Laminate	48"W x 24"D x 40-3/4"H

## Mobile Laptop Recharging Station

A safe, efficient, and mobile way to store laptop computers. Sliding hardwood veneer doors on both sides provide easy access to storage as well as to the charging station. Multiple outlet plug strips in the back section allow for easy plug-in of up to 20 computers. The cords from the outlet strips can be fed through a hole in the floor of the unit so that the doors can be locked during charging. The wire dividers are perforated and a fan and vent is provided to minimize heat buildup during charging. Constructed of oak and oak veneers with a 1-1/4" high pressure laminate work surface. This unit rolls easily on 4" ball bearing, locking, swivel casters.

ITEM #	TOP	SIZE

## Wood Cubbies

A great way to store materials in your classroom. These cubby units are available in both oak and maple veneer and can be ordered in sections from one to four. Each section contains four cubbies, which measure: 10-1/2"W x 14"D x 10-1/2"H. The 51"H models have four cubbies per section. 72"H models have 6 cubbies per section. The sections are divided with 3/4" veneered plywood and finished with a hard, UV finish. The back is designed to be anchored to a wall for stability. Black rubber base molding gives the cubby unit a finished look.

## Paper Storage Cabinet

This maple plywood cabinet provides storage space for flat items like paper, blueprints, and maps. It has seven pull-out drawers measuring 41"W x 24"D x 3"H (inside size). Both doors lock. The cabinet can be used as a work surface as well, with its 50"W x 30"D 1-1/4" thick almond colored plastic laminate top. This unit is meant to be against the wall, the back is unfinished.

ITEM #	SIZE
DPSC-50	50"W x 30"D x 36"H

## Flat File System

Protect and store your art work, drawings or biological collections. The flat files hold papers up to 24" x 36". The inside of the drawers measure 37"W x 24-3/4"D x 1-1/2"H and feature full extension glides. Up to three units can be stacked providing you with ample storage. All three pieces are interlocking to each other or can be independent of each other. Start with the 4" toe kick which is covered with rubber base molding. Next stack the flat files (five drawers each) and for a finished look add the veneered top. Features include dovetailed drawers, your choice of veneered oak or maple, ADA compliant pulls and label holders.

## University Robotic Workbench

Robotic team storage solution and workbench that is constructed of solid maple and maple veneers with an earth-friendly UV finish. Outfitted with two compartments—the pull-out shelf on the two compartment unit holds up to a 24" square robot. Also, within the compartment is a separate drawer with a customizable foam insert (included) to store tools (not included). Each compartment is outfitted to accept a combination lock. The top is ShopTop®, which sandwiches a medium-density fiberboard between two layers of 1/2" high-density particleboard, creating a non-conductive and splinter proof top. The 1-1/4" top can be extended an extra 8" by raising it. Lowering the extension allows the unit to fit through doorways and moves easily on six 4" heavy-duty, locking casters.

## Robotic Workbench

Robotic team storage for three robots and supplies. The maple plywood workbench provides three separate storage compartments. Each compartment has a roll-out shelf which holds up to an 18" square robot. Also, within the compartment is a separate drawer with a customizable foam insert (included) to store tools (not included). Each compartment is outfitted to accept a combination lock. The top is ShopTop®, which sandwiches a medium-density fiberboard between two layers of 1/2" high-density particleboard, creating a

non-conductive and splinter proof top. The 1-1/4" ShopTop® can be extended an extra 8" by raising it and locking. Lowering the extension allows the unit to fit through standard doorways and moves easily on six 4" heavy-duty, locking casters.

## Robotic Mobile Workbench

Build the perfect robot on this workbench designed specifically for PLTW and Robotics work. Our robotics workbench is made of maple veneers and has locking casters allowing it to be moved within the classroom. The 61"W x 49"D top has a 2-1/4" lip around the edges to keep robots safely on the table top. The base has two large storage areas to store your robot and clear Certwood totes for storing parts. Includes: Four totes (2-1/4"W x 16-3/4"D x 3"H), two deeper totes (12-1/4"W x 16-3/4"D x 6"H). Above the tote and open storage is

an 4-3/4"H area for storing long metal rails for your robot. Or use it to store chart pads and paper. The workbench is finished with an earth friendly UV finish.

## Sanitizing Monitor Storage Cabinet

The Monitor UV Germicidal storage cabinet measures 24-1/2"W x 32"H x 9-1/2"D. Weighs 45 pounds. The cabinet holds 6 glasses or 5 goggles to a shelf on 8 shelves. With an average kill rate of 99.2%, the monitor provides excellent protection in 5 minutes. Shuts off automatically if the double doors are opened. Cabinet is constructed of 24 gauge white enameled steel. Pilot light confirms that the UV lamp is in use. Five minute cycle is controlled by a timer and doors

are interlocked with tamper resistant latches. Germicidal lamp has a 20 year limited warranty. No assembly required. Lockable, two keys provided. Wall or shelf mountable with a 7' grounded electrical cord. Underwriters Laboratories Inc. Listed: File #E140818. No direct UV radiation escapes from cabinet when in use. Glasses or goggles not included.

## Mobile Fume Hood Station

A versatile fume hood that can be used in multiple classrooms. This ductless fume hood has an all-inclusive filter that handles liquids, gases and solid chemicals. This unit is so flexible, it does not require ducting (saves energy) and plugs into an ordinary outlet. Each unit comes with Smart Technology™ – an exclusive set of tools that is comprised of smart-light communication, chemical sensors, real-time status, and the eGuard app. Smart-light communication is a soft band of light on the unit that lets you know the unit is operating safely. The band of light will slowly pulse to let you know if the airflow is compromised, if there is a fan failure, or there it is time to change your filters. The fume hood part of the unit is enclosed by 5/16" thick acrylic so a teacher can demonstrate while students surround the hood. The metallic parts are anti-corrosion metallic alloy protected by a thermo-hardened anti-acid polymer coating. The internal hood dimensions are 30-1/8"W x 23"D x 32"H; external dimensions are 31-1/2"W x 25"D x 45-1/4"H. Overall dimensions are: 32-3/8"W x 27-1/4"D x 81-1/2"H. Unit comes with an air flow meter,

flow monitor, sampling port, programmable timer, energy ports, one filter (2-year average life) and a list of approved chemicals. Filter type is determined by the results of the Valiquet Chemical Questionnaire. Fume hood comes standard with an internal light fixture. The fume hood is mounted to a 27-1/4"D x 32-3/8"W x 36"H oak cabinet. It provides an easy way to move the fume hood within a room or school. It rolls easily on 4" casters and has two drawers, two pull-out lipped shelves lined with a chemical resistant liner. The unit is finished in natural oak with an earth-friendly chemical resistant UV finish. Overall dimensions: 81-1/2"H x 32-3/8"W x 27-1/4"D

*Erlab hoods require filters be selected according to individual applications (Must get the Valiquet Chemical Questionnaire form completed prior to purchase and it will determine which model you will receive. On rare occasions results may also require purchase of a HEPA filter). Your specifications will be analyzed and validated by Erlab's PhD chemist, ensuring your safety. Please contact customer service with questions.*

Safety Station

Complete all-in-one safety station has a built-in shower and eyewash station, and storage for other equipment like fire blankets, spill kits, first aid kits and a fire extinguisher. The shower head has a high volume continuous water flow. Pulling the conveniently located pull handle activates the stay open valve. The eyewash is mounted on black plastic laminate over a stainless steel bowl but can be detached and pulled up to 12' away from the station for washing eyes or other small areas. The eyewash paddle handle activates the stay open valve leaving the users hands free. Shelving, both locking and open, is available. The area beneath the storage

is open to allow the mounting of various safety apparatus. The unit is ADA compliant with room for a wheelchair and lever controlled fixtures. Includes a 4" chase behind to allow plumbing to run. It is finished with a chemical resistant, earth-friendly UV finish. Weight: 280 lbs.

## Acid & Corrosive Storage Cabinet

Blue steel safety cabinets for corrosives have the same quality safety features as the cabinets for flammables. This unit comes with double-wall construction, dual vents, grounding wire connections, adjustable shelves, leak proof sills, three-point self-latching doors and leveling feet. Manual-close doors opens to a full 180 degrees and self-latches when pushed closed. It includes polyethylene trays attached to galvanized steel shelves and a separate polyethylene liner for the bottom sump resist aggressive chemicals. Easily remove the liner for quick cleaning of drips and leaks. An all epoxy baked-on powder-coat finish, inside and out, provides increased chemical resistance. Cabinet meet OSHA and NFPA 30.

ITEM #	DOOR	SIZE	GALLONS

## Flammable Liquid Storage Cabinet

Constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1-1/2" (38-mm) of insulating air space for fire resistance. High-performance, self-latching doors close easily and securely for maximum protection under fire conditions. Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time. Galvanized steel shelves direct spills to back. Cabinets also feature dual vents with flame arresters, four adjustable self-leveling feet, grounding connector, and trilingual warning label. Durable lead-free epoxy/polyester powder-coat finish provides excellent chemical resistance. Manual-close door(s) opens to a full 180 degrees and self-latches when pushed closed. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74°C) under fire conditions.

## Hydroponics Growing Center

Self contained ebb and flow hydroponics growing system. The perfect way to learn how plants can grow without soil and helps teach the basic concepts for the plants needs, nutrition, food production, recycling, agricultural technology and soil-less growing environments. This mobile hydroponics center includes grow lights and water pump. The adjustable timers enable you to grow your plants with the perfect amount of water and sunlight. The construction allows easy access for students and teachers alike. The Hydroponics Center is made of solid maple and maple veneers. The containment plant tray is 8"H x 27-1/2"D x 42"W. There is a 25 gallon nutrient reservoir with lid, a locked cabinet for timers and air pump, and a 150 watt grow light. The growing system is completed with a submersible pump, an air pump, an air stone, two timers, hoses and ten 6" net pots. The unit moves easily on 4" locking, leveling casters.

## Plant Growing Stand

A compact, versatile plant stand. This stand has four adjustable and two fixed mesh shelves with five sets of grow lights. Start your seedlings indoor and watch them grow. The stand is made of plastic coated iron making it tough, reliable and durable. The simple design allows the shelves to be adjusted in 1" increments. The smooth wheels add to the mobility of the stand. Five T5 grow lights provide superior performance and reliability. Each light has two specialty horticultural 4" high-output T5HO bulbs housed within a polished aluminum reflector. The hanging hardware allows the height of the lights to be adjusted. 20 plastic trays (four per shelf) provide the perfect space to place your plants. The complete unit has a 300 lb. weight limit.

## High Quality Compartment Sink

High quality stainless steel sinks for your toughest cleaning tasks. Whether you need a drain board model or a stainless steel utility/prep basin, we have the right model for you. These one, two and three compartment sinks are perfect for washing, rinsing, and sanitizing. The 1-1/2" rounded front and side edges help contain splashes. The 18 gauge T-304 Stainless Steel is NSF certified and boosts optimum strength and durability. These sinks are safe for food prep. Stainless sinks all come with 1-5/8"

galvanized legs with 1" adjustable high impact corrosion resistant feet, accommodate 8" on center faucets and have a 9" back splash. Select models come with 1/4" pitched drain boards to ensure proper drainage. Each sink has a 3-1/2" drain included. 36"H at sink front, 43-3/4"H at top of back splash. Uses fixture #250784. NSF Approved

## Stainless Steel Over Shelves

Extend the use of your stainless steel tables by adding stainless over shelves. These shelves are made of 18 gauge T-304 stainless steel and are 12"D. The shelves mount directly on the stainless tables with self-tapping screws. You can choose a single shelf or a double shelf. The single shelf is 19-1/2"H. The double shelf is 31"H with an adjustable lower shelf. NSF Approved

ITEM # (DOUBLE)	ITEM # (SINGLE)	SIZE
250500	250504	36"W X 12"D
250501	250505	48"W X 12"D
250502	250506	60"W X 12"D
250503	250507	72"W X 12"D

## Drawer for Stainless Steel Table

Add a drawer to your stainless steel tables. Stainless steel drawers have 5" deep pans which are removable for cleaning. The drawers have a 200 lb. capacity and are ADA compliant. 36"W, 48"W and 60"W tables accommodate one drawer. Two drawers will fit on a 72"W table. Inside Drawer size: 20"L x 20"W x 5"D. NSF Approved

ITEM #	DRAWER SIZE
250487	26"W x 8"D x 27"H (Outside Dimensions)

## Dunnage Rack

Dunnage racks made 1-1/2" square aluminum tubing are the perfect place to store heavy and bulky loads, while keeping them off the ground. The square tube frames provide extra strength and are corrosion resistant. The 36"W model holds up to 3000 lbs. The 48"W model holds up to 2000 lbs. NSF Approved

ITEM #	SIZE
250489	36"W x 20"D x 12"H
250490	48"W x 20"D x 12"H

## Clay Wedging Table

This wedging table was developed with teacher input. It has a solid maple apron and legs. But the real feature is the top. The top is a 1-1/4" ChemGuard covered with a canvas. (Do not put canvas in dryer after washing, needs to be air-dried.) The wedging table's canvas top is held on with Velcro making it easy to remove, clean and reattach. The top also has a clay cutter wire mounted to the top and angled across the depth of the top. The wire is secured with a twist-lock fastener, so if the wire stretches, you can easily tighten it again.

CWC-72P

## Ceramic Work Center

This work center can be used against a wall or as an island. The unit includes two base cabinets made of plywood and solid hardwoods finished in an earth-friendly UV finish. One locking base cabinet provides a place for storing larger items and includes one adjustable shelf. The other cabinet has three dovetailed drawers which lock. Also included with this model is our mobile clay cart (see C-38), which fits nicely between the two cabinets. The center is completed with a 1-1/4" almond plastic laminate top.

ITEM #	SIZE
CWC-72P	72"W x 30"D x 34-1/4"H

## Mobile Clay Cart

Sturdily constructed of maple plywood, this clay cart will provide years of service. The inside has a removable liner; top is fitted with piano hinge, and recessed pull. The top can remain open while class is in session. Made to roll easily on casters. The unit can be used individually or in conjunction with any ceramic bench. Finished naturally with an earth-friendly UV finish. Weight: 50 lbs.

ITEM #	SIZE
C-38	18-1/4"W x 14-1/8"D x 28-1/2"H

## Sculpture Ware Cart

This versatile drying and damp cabinet lets you eliminate the plastic bag mess associated with ceramics and pottery drying. You can control how fast your ceramics dry by how much you open the heavy vinyl, zippered cover. This peninsula style cart is constructed of maple veneers and finished with a moisture resistant finish. Each side of the cart has three epoxy coated, grid-style shelves, which can be adjusted to your needs and an epoxy coated drip pan on the bottom shelf. Shelf depth on each side is 14". Heavy-duty 4" swivel casters with brakes make the sculpture cart easy to move even when fully loaded.

ITEM #	SIZE
5100M	48-1/2"W x 30-1/2"D x 60-1/2"H

## Drying & Damp Cabinets

**DRYING CABINET** is designed for drying and storing green ware and clay pieces. It is constructed of 13-gauge angles steel pieces welded to 3/4", 16-gauge expanded steel mesh. Top and bottom panels are 16-gauge steel. This design provides full air circulation. The four shelves are constructed with 1/8" perforated hardboard, and is supported by fixed welded brackets.

**DAMP CABINET** keeps your "works in progress" in moist workable condition. This cabinet is air-sealed by foam rubber gasket doors. Doors and all exterior walls are double-walled with an internal layer of anodized sheet aluminum. Heavy-duty bolt-on shelves have aluminum surface and are supplied with water retaining bats.

ITEM #	PRODUCT	SIZE	WEIGHT
9200	Drying Cabinet	36"W x 18"D x 84"H	200 lbs.

250515	Metal Rack	20-1/4"W x 26"D x 69"H

### Canvas Door Display Cabinet

A cabinet that combines storage and display space! The cabinet has a fixed bottom and middle shelf and four adjustable shelves. All the shelves are 1" thick and can hold up to 40 lbs. per square foot. It is constructed of oak veneers and solid hardwoods with a chemical resistant, earth-friendly UV finish. The locking, three-point latching handled doors are framed and covered with a black canvas mesh that can be used to hang artwork or posters.

ITEM #	PRODUCT	SIZE
359-4822M	Canvas Door Display	48"W x 22"D x 84"H

Cabinet should be secured to the wall for safety. Mounting hardware is not included.

### Painting Hood & Cabinet System

Fabricated of 18-gauge steel with a corrosion resistant, powder coat baked epoxy finish. The upper booth enclosure includes a standard vapor-proof light as well as two filters set in an easy-to-change flange bracket system. The globed interior light is mounted and wired to a common junction box. The light fixture is shipped with standard bulbs. The blower motor operates at an RPM designed to provide 100 LFM and approximately 3/4" of static pressure. The blower will be mounted on top and wired to the common junction box. The transition piece from the booth to blower is provided and connected. Both the light and the blower come wired to switches in the front post area of the booth. The booth must be connected to duct work (not provided.) The paint booth comes with a maple double door base cabinet with locking doors and an adjustable shelf.

ITEM #	PRODUCT	SIZE

## Art Storage Cabinet

Whether you are storing paint cans or supplies, this cabinet provides a smart storage solution. The overall cabinet is constructed of solid maple and maple veneers with an earth-friendly UV finish. The can cubby area holds 29 standard aerosol cans and pints of tempera and acrylic paints (3" x 4" area) in 1/4" MDF. It includes clear totes—nine single depth totes (12-1/4"W x 16-3/4"D x 3"H) and three double depth totes (12-1/4"W x 16-3/4"D x 6"H). The Glide and Tilt system holds the trays in an angled open position. Above are two shelves with 15 sets of holes for optional metal dividers. With the dividers you are able to store wet canvases. Need a place for pencils, markers and more? Add on the Can Cup Set (ATH-6) that can be inserted in the openings and are available in sets of 6. The doors have three-point locking handles for secure storage.

ITEM #	PRODUCT	SIZE

## Heavy Duty Book Truck

The LOC book truck is made of 1" hardwood panels, has 1/4" reinforcement rods under shelves, has (4) rubber edge bumpers on lower portion of the book truck. The three fixed shelves to hold numerous books. It rolls on 5" casters, and has a 1" applied bottom to reinforce the sides of book truck. This unit ships fully assembled.

ITEM #	WOOD	SIZE
BT-LOC	Maple	39"W x 16"D x 43-1/2"H

## Augmented Reality Sandbox

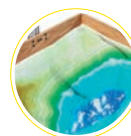

This amazing sandbox uses 3D visualization applications and a hands-on exhibit combining a real sandbox, virtual topography and water created using a closed loop of a Microsoft Kinect 3D camera, powerful simulation and a Linux computer and data projector. The resulting (AR) sandbox allows users to create topography models by shaping real sand, which is then augmented in real time by an elevation color map, topographic contour lines, and simulated water and lava. The system teaches geographic, geologic, and hydro-logic concepts such as how to read a topography map, the meaning of contour lines, watersheds, catchment areas, levees, and much more. It can be used to teach history and explain complex geopolitical concepts as well as use for special needs children. The software was designed by a team of scientists at UC-Davis.\* Choose for an oak or maple unit that comes complete with the sandbox, camera, projector, wire management, and Linux computer with instructions to load the visualization software. The sandbox moves on heavy-duty locking casters. A wire management system keeps the cords from interfering with box. There is a laptop shelf, that folds away with a collapsible hinge. Detailed instructions for downloading and calibrating the software and running the program are included.

ITEM #	PRODUCT	ASSEMBLED SIZE
ARS-4030K	Augmented Reality Sandbox - Oak	42"W x 32-46"D x 85"H
ARS-4030M	Augmented Reality Sandbox - Maple	42"W x 32-46"D x 85"H

Note: Sand not included (we recommend 250 lbs. of Sandastik® sparkling white play sand).

\* The Augmented Reality Sandbox was developed by the UC Davis W.M. Keck Center for Active Visualization in the Earth Sciences (KeckCAVES, [www.keckcaves.org](http://www.keckcaves.org)), supported by the National Science Foundation under Grant No. DRL 1114663. For more information, please visit <http://arsandbox.org>.

## Multi-Purpose Cart

3D printers are essential to today's makerspaces. So is having a stand that is sturdy a mobile, while providing a flexibility needed for today's spaces. This cart offers all that, plus the warmth of solid maples and maple veneers. It rolls easily on 4" locking casters, and has a fully dovetailed drawer for storage and a veneer shelf for storing extra materials. Need a place to hang your reels? A removable aluminum upright set holds up to six spools of plastic at a convenient height above your printer allowing you to feed the plastic easily into your printer. You can also use this stand as a demonstration station, by adding the optional mirror to hang on the upright set. Additional space is provided by the drop leaf shelf (12"W x 24"D) and the recessed shelf (17"W x 12"D) underneath.

ITEM #	PRODUCT	SIZE

## Tractor Stools

Stand out with our tractor style seating that combines form and function. These ergonomic stools are constructed from rugged polyurethane that is self-skinning, chemical- and puncture-resistant, and fully washable. Available in black or royal blue with your choice of two heights—desk or standing height. They easily adjust in height with a smooth pneumatic circle adjustment. They come standard with black non-marring glides, but optional non-locking self-braking casters are available with a weight capacity of 300 lbs. All backed by a 15-year warranty—lifetime on the pneumatic lift.

## MOVE Cabinets

Looking for casework that's flexible? Consider our Move line of cabinets. Instead of being permanently set in a room, these cabinets can be reconfigured based on your needs. Each unit features one of three cabinet styles: door, drawer/door, or drawer cabinet. Each cabinet is hung from a black power-coated, 16-gauge steel support frame with nylon adjustable floor glides. The cabinets are constructed of solid hardwoods and veneers in either oak or maple and finished with a chemical

resistant, earth friendly UV finish and includes black hinges and pulls. The back of the cabinet is designed to be against a wall and does not have a finished back or a toe kick. The cabinets are available with two top options: 1-1/4" ChemGuard or 3/4" Phenolic and come in three widths: 24", 36" or 48"W. Overall size: 24"D x 36"H.

## Oak Casework

Shown with optional top and base molding. The tops include a 4" back splash.

## Maple Casework

Shown with optional top and base molding. The tops include a 4" back splash.

**BASE CABINETS**—Choose from oak or maple solid hardwood and veneers. Base cabinets with choice of three styles: Door cabinet, door/drawer cabinet or drawer cabinet. Cabinets can be ganged together to create a wall of base cabinets. All cabinets measure 36"W x 22"D x 35"H. They are finished with a chemical resistant, earth-friendly UV finish.

**WALL CABINETS**—Choose from oak or maple solid hardwood and veneers. Choose from two models: Veneered solid doors or solid framed glass doors. Glass doors feature 3/16" thick safety glass. Cabinets have a lock and two adjustable shelves. They are finished with a chemical resistant, earth-friendly UV finish. Units come in varying widths and are 12"D x 30"H.

**EPOXY OR PHENOLIC TOPS**—Solid 1" Epoxy Resin or 3/4" Solid Phenolic Tops: These solid tops provide superior chemical resistance. Tops include 4" back splash. Color: Black. Call for pricing on custom sizes.

**BUTCHER BLOCK TOPS**—Call for pricing on custom sizes of solid maple tops. Tops are available in 1-3/4" and 2-1/4" thicknesses.

**RUBBER BASE MOLDING**—4"H black rubber base molding used to present a finished look to a base cabinet. Must be glued to the toe kick; sold by the foot. Metal corners are sold separately as a set of two with screws.

## PLASTIC LAMINATE

**CORE MATERIAL** Industrial grade particleboard with high-pressure laminate (HPL) on top side, resin backer sheet on bottom side

**FINISH** Matte finish, color options vary per product

**EDGE** PVC T-Mold edge with 1-3/4" radius corners

**THICKNESS** 3/4" or 1-1/4"

**SIZES** Contact our customer service representative for additional sizing information

## CHEM-GUARD

**CORE MATERIAL** Industrial grade particleboard with chemical resistant (CR) high-pressure laminate (HPL) on top side, resin backer sheet on bottom side

**FINISH** Black, matte finish

**EDGE** 3MM PVC edge with square corners

**THICKNESS** 1-1/4"

**SIZES** Contact our customer service representative for additional sizing information

## PHENOLIC RESIN

**CORE MATERIAL** Solid phenolic compact, standard resistant grade pigmented resin core with electron-beam cured surface

**FINISH** Black, matte finish

**EDGE** No edge, solid top with square corners, 1/8" bevel on exposed edges and corners

**THICKNESS** 3/4"

**SIZES** Contact our customer service representative for additional sizing information

## 1" EPOXY RESIN

**CORE MATERIAL** Monolithic compounded mixture of modified epoxy resin

**FINISH** Black, matte finish

**EDGE** No edge, solid top with square corners, 1/8" bevel on exposed edges and corners

**THICKNESS** 1"

**SIZES** Contact our customer service representative for additional sizing information

## HARD MAPLE

**CORE MATERIAL** Solid hard maple top consisting of face-glued hardwood strips

**FINISH** Clear varnique finish, 2 coats top, 1 coat bottom

**EDGE** Solid edge with .125" radius on top, bottom and corner edges

**THICKNESS** Available in 1-3/4" or 2-1/4"

**SIZES** Contact our customer service representative for additional sizing information

## STEEL TOP

**CORE MATERIAL** Bench top made of 12-gauge heavy steel capping over a 2" thick filler core

**FINISH** Enameled gray finish

**EDGE** Corners are welded and ground smooth for added safety

**THICKNESS** 2"

**SIZES** Contact our customer service representative for additional sizing information

## SHOPTOP®

**CORE MATERIAL** Composite of medium density fiberboard (MDF) sandwiched between two pieces of 1/2" particle board

**SURFACE MATERIALS** 1/2" industrial grade particle board (Top & Bottom)

**FINISH** Particle board, sealed and finished with a clear chemical resistant, earth-friendly UV finish, 2 coats on top, 1 coat on bottom

**EDGE** 3/8" radius on top edge

**THICKNESS** 1-1/2"

**SIZES** Contact our customer service representative for additional sizing information
