

HUMAN ANATOMY LEARNING SYSTEM

**INTERACTIVE. VISUAL.
BUILT FOR THE CLASSROOM.**

MedTableAR uses augmented reality (AR) to help students understand human anatomy through hands-on, collaborative exploration.

Two Complementary Learning Modules

Body Systems

Students explore the entire human body, one system at a time.

Body Organs

Students dive deeper into individual organs.

Designed for Group Learning

 Supports up to 6 students at once
Encourages collaboration and discussion

What's Included

- 3 pre-loaded tablets with MedTableAR app
- MedTable AR mat + carrying case
- 1-year MedTable AR Software License
- MedTable AR Educator Guide
- Screen-casting device for projector or monitor display

Pricing (HOSA)

- \$5,000
- \$350

See it in action (perfect to share with administrators). Short demo video available. Interested or need a quote?

HUMAN ANATOMY LEARNING SYSTEM

AUGMENTED REALITY FOR HANDS-ON ANATOMY LEARNING

Includes the MedTable AR Educator Guide

Bring Human Anatomy to Life — Without Adding to Your Prep Time

Turn anatomy into an interactive experience

Students explore body systems in immersive 3D, making abstract concepts become more visible and memorable.

Ready-to-use lessons that fit your schedule

Launch AR-supported lessons within a single class period using structured lesson scaffolds and student handouts.

Designed for real classrooms

Flexible modules adapt easily for middle school or high school anatomy or biology courses.

Save planning time

Editable lesson templates and curriculum integration guidance reduce prep while improving lesson flow.

Build confidence with AR instruction

A structured Professional Development Plan helps teachers implement MedTable AR successfully from day one.

Supports engagement and learning outcomes

Hands-on exploration connects directly to lesson objectives, discussion, and assessment.

Teach complete body systems with organized modules

Nervous, Cardiovascular, Respiratory, Digestive, Skeletal, Muscular, Integumentary, and Lymphatic systems are included.
