CADclass

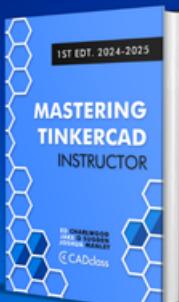

DISTRIBUTED BY LEARNING LABS

Professional Development Training & Certifications.

Live, Online, Expertise

Professional Development Training Opportunities: CAD, CAM, CNC, Laser Cutting & 3D Printing

Book a Demo to see the full platform in action!

Zero Prep — Lesson plans, videos, eBooks, rubrics, and pacing, all ready. Walk in and teach.

No Expertise Needed — Published workbooks keep everyone on track regardless of instructor background.

Projects They Love — Drones, guitars, robotic hands, real builds, real engineering fundamentals.

Any Device — Chromebook-compatible, web-based, scalable from one class to a full district.

Professional-Grade CAD Curriculum, Built for Real Classrooms.

CADclass provides educators with complete curriculum, training, and support for CAD & CAM instruction. Our courses are aligned with industry standards and designed to prepare students for certification exams. Whether you're building a new program or upgrading what you have, we equip your classroom to lead with confidence.
