

Learning Labs, Inc.

Serving Career, Technical, and Engineering Education Since 1967

The Company

Learning Labs is a family owned business with over 50 years of history supporting career, technical, and engineering education. Through the years, the company has earned a stellar reputation for providing exceptional products, service, and support.

The People

The heart and soul of any enduring business is the people behind it. Learning Labs personnel are professionally trained and are dedicated to maintaining relationships with our friends, associates, and partners in education. The average tenure of a Learning Labs employee today is well over 20 years. When you call Learning Labs for assistance, a real person will answer the phone, and the people you speak with will be knowledgeable and helpful. The same is true for our on-site support personnel. Learning Labs' service technicians are what make our company different than most in our industry. They know our products, and they know how to help you keep your lab up and running.

The Services

If any single factor contributes to the longevity of Learning Labs the most, perhaps it's our service. Learning Labs has loyal customers, some of which we have served for decades. Learning Labs offers the following types of services:

- Planning Services
- Lab Design Services
- Professional Development
- Workshops/Webinars
- On-Site Service
- Unlimited Lifetime Phone Support

The Products

Learning Labs provides products for grade levels ranging from elementary through university. "Hands-on" is the common theme throughout. From the early introduction of STEM/STEAM to advanced principles of engineering, Learning Labs can help.
