A reality-based recruiting, screening and training solution.

The Miller® LiveArc™ welding performance management system is a new and innovative reality-based training system that utilizes a live welding arc, unlike other virtual training solutions. It's designed to recruit, screen, train, re-qualify and manage the performance of weld operators — **better, faster and more cost-effectively than traditional methods.**

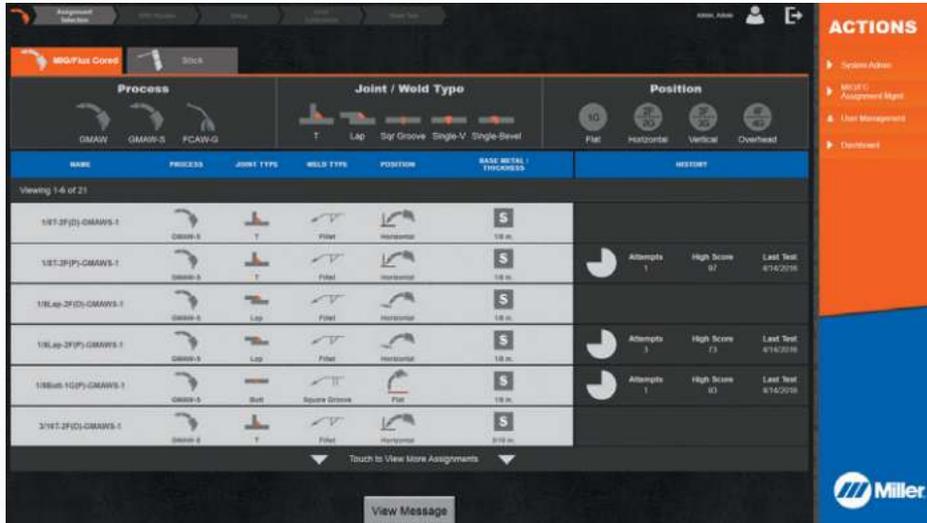

Advanced motion-tracking technology provides the critical feedback required for improvement of baseline welding skills. With an easy-to-use touch

screen interface, users can guide themselves through assignment selection and pre-weld feedback to acquire desired techniques before moving to actual live arc training experiences.

The system also gives welding instructors the ability to configure assignments and technique parameters. It stores the detailed performance history of each operator. LiveArc is a powerful teaching tool that allows instructors to better manage their time, reduces the cost of teaching materials and accelerates student progress.

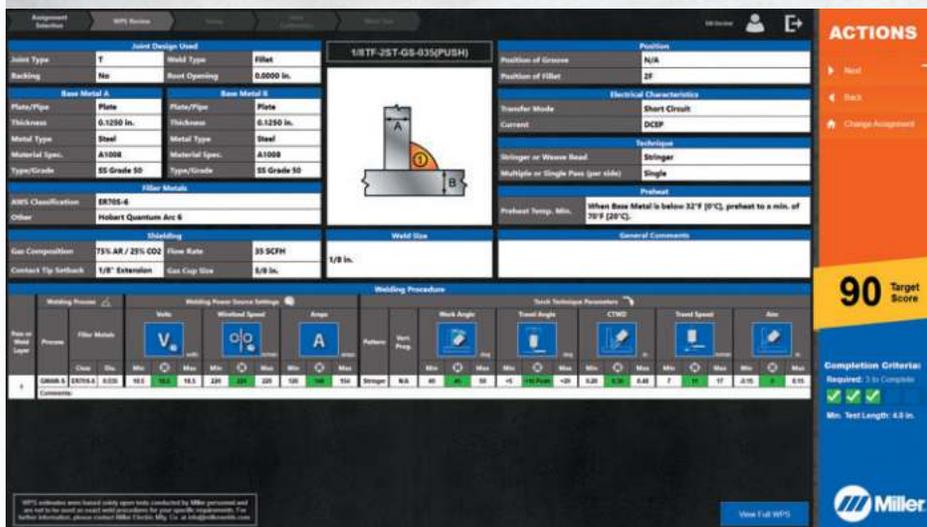

Intuitive user interface that guides and engages

Guided by an easy-to-understand interface with graphical icons and instructional pop-ups, users will find navigation intuitive with a quick learning curve. Scoring and performance feedback engage and foster independent self-improvement through repetition.

Assignment selection screen

- Guides the user through a range of targeted exercises.
- Includes a library of assignments designed by Miller for immediate use, while also allowing instructors the flexibility to configure customized assignments.
- Offers assignment completion status, history summary and easy access to detailed performance history data.

Welding procedure specifications (WPS) screen

- Guides the user through proper selection and preparation of materials.
- Provides correct power source and wire feeder settings.
- For GMAW/FCAW, screen provides target values and limits for work angle, travel angle, travel speed, contact-tip-to-work distance (CTWD) and aim.
- For SMAW, screen provides target values and limits for work angle, travel angle, arc length and travel speed.
- Assignment parameters can be configured to suit the skill level (and scoring potential) of the user.
- Displays instructor-determined target score and assignment completion criteria.

Post-weld feedback screen

- Data is provided following tests in both simulation and live arc modes.
- For GMAW/FCAW, performance feedback on work angle, travel angle, travel speed, CTWD and aim is provided.
- For SMAW, performance feedback on work angle, travel angle, arc length and travel speed is provided.
- Data captured allows for monitoring and evaluation. All test performance history is stored and can be retrieved and reviewed at any time to monitor ongoing development.

LiveArc™ Welding Performance Management System

TRUE BLUE
WARRANTY

The LiveArc™ system is warranted for one year, parts and labor.

The solution for industrial, manufacturing and educational markets for developing better welding skills, faster and more cost-effectively than ever before.

Better training

- Utilizes live arc
- Intuitive system promotes user independence
- Provides objective, quantitative feedback on key performance parameters
- Miller-designed assignments included with ability to customize
- Flexible for recruiting, screening, training and performance management

Faster results

- Independent usage accelerates personal development
- Accelerated training times put trainees in production lines faster
- Shorter educational periods allow trainees to focus on additional learning opportunities

More cost effective

- Trainers and educators have more time to focus on other tasks
- Reduces poor-quality welding and defects, rework and downtime
- Pre-weld simulation saves money on coupons, wire and gas (GMAW/FCAW only)

LiveArc equipment ordering information

LiveArc GMAW/FCAW with Welding Positioning Arm 907714

- Comes complete with:
- SmartGun with 15 ft. (4.6 m) cable (270698)
 - Calibration tool (266768)
 - (2) Table clamps (257285)
 - Arm assembly (270727)
 - C-clamp assembly (270725)
 - Removable arm extension for right- and left-hand applications (270728)

- Plus extra Tregaskiss consumables:
- (5) .035 in. contact tips (403-20-35-05)
 - (5) .045 in. contact tips (403-20-45-05)
 - (5) .052 in. contact tips (403-20-52-05)
 - (1) Heavy-duty 5/8-bore 1/8-stickout nozzle (401-87-62-02)
 - (1) Heavy-duty 5/8-bore 1/8-recess nozzle (401-6-62-02)
 - (1) Heavy-duty 5/8-bore flush nozzle (401-48-62)

LiveArc GMAW/FCAW/SMAW with Welding Positioning Arm 907714001

- Includes above plus:
- SmartStinger with 15 ft. (4.6 m) cable (275089)
 - Router box (275484)
 - Software update for SMAW applications

LiveArc SMAW Module 301391

LiveArc Marketing Crate 301412

Heavy-duty steel-framed wood crate with doors for easy access and storage of the LiveArc base and upper computer/monitor/camera fixture
