## NEW! 360° CAREER EXPLORATION FEATURE

360°
IMMERSIVE 360° EXPERIENCE

ANYTIME, ANYWHERE

ON ANY DEVICE

## First of Three Construction Field Trips Launching This Month!

If you need an exciting way to kick off the school year... ever taken your students to ride a bucket loader as it excavates a building site? This first field trip lets you explore the office and equipment yards to understand how the business works, and then digs into a job site to experience real work-in-motion in our newest immersive **360° video** adventure!

The experiences keep growing!

Our new **CONSTRUCTION FIELDTRIPS** plus the 10 existing tours, allow students to explore over **110** high-demand careers.

Students even step into an actual construction classroom to see how CTE programs help launch in-demand careers faster and more affordably. By combining real-world tours and job shadows with interactive resources and built-in lessons, Worktour makes career exploration across all industries more convenient and effective.

**Schedule a demo** to learn more about this new launch that automatically updates into the catalog in August, as well as the next two parts of our construction series, where students also explore how a water treatment facility for the Department of Public Works and Utilities is upgraded and how a Kansas highway bridge is built.

### IMMERSIVE 360° EXPERIENCE
Students control the view and explore real workplaces in every direction.

### ANYTIME, ANYWHERE
Accessible on any device—desktops, laptops, tablets.

### ENGAGE & INSPIRE
Captivates students and helps them connect their interests to real career pathways.

### SUPPORTS CAREER READINESS
Perfect for classroom lessons, career fairs, advising, and college & career exploration.

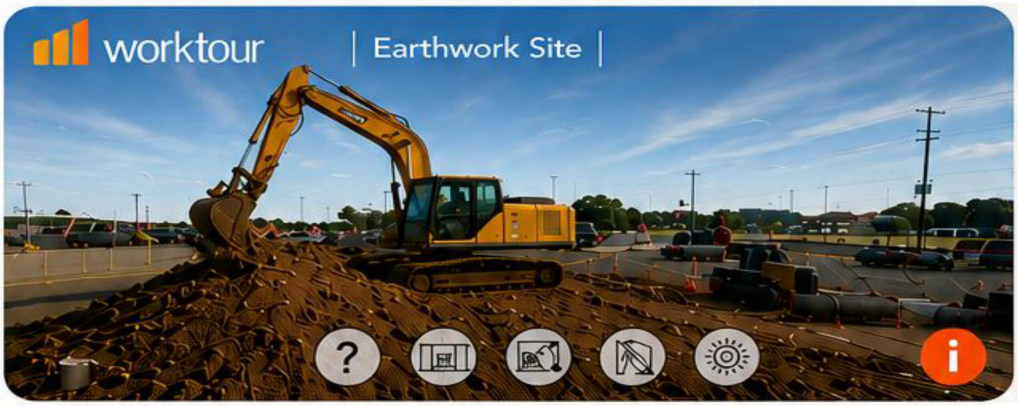
### BUILT FOR EDUCATORS
Easily assign, track, and integrate built-in lessons and tools.

# STEP INSIDE. LOOK AROUND. SEE WHAT'S POSSIBLE.

Our newest construction field trip takes students on an immersive 360° journey from the office to the job site and **into the classroom.**

## Drafting Plans

Start in the office and see how projects are planned before any dirt is moved. Hear from real professionals and explore the tools and technology used to bring big ideas to life.



## Earthwork Site

Get on the job site and experience work-in-motion. Look around as heavy equipment excavates, moves earth, and prepares the site for what's to come.

## In the Classroom

Step inside a real construction classroom to see how CTE programs give students the skills, training, and hands-on experience they need to launch in-demand careers.

## HELP STUDENTS DISCOVER WHAT'S POSSIBLE.

Give every student the opportunity to explore careers, build confidence, and plan their future with clarity.

- EXPLORE REAL JOBS
- VISIT REAL WORKPLACES
- BUILD A BRIGHTER FUTURE

## WATCH THE 360° VIDEO NOW!

Scan the QR code with your phone camera to watch the 360° video and experience it for yourself!

## MORE TO COME!

This is the first of three construction field trips launching this month. Students will also explore a water treatment facility upgrade and the construction of a Kansas highway bridge.
